“ *To the most beautiful sister in the world, I am still in shock, I already miss our many girl talks, laughs and tears. But what will missed the most is you being a strong-willed and opinionated woman, and if you didn't like something, you let us know about it. But your undying support of your kids went a long way in proving to them that they were on the right path. So to Esther's entourage give glory to god for he has blessed you guys with a mother's love that no one can explain, always remember, wherever you are, whether near or far, you had a mother who really, really loved you. Rest in peace my dear sister I will always remember you and our breathtaking memories together, you will forever remain in my heart as I know you are now one of God's angel. Love you much, Dee*
