To the family,
Valerie was one that I taught at Prairie View that was always upbeat and with a smile on her face. She loved the PV Marching Storm band and all that music had to offer. I pray the many comments you receive will help 🙏 to ease the void you now have.
Sincere sympathy,
Mark W. Phillips, retired

“ Val, you’ve been my best friend for 26 years. You were and always will be a part of my family. So many of my best memories are wrapped up in you. You had a way of making people feel at ease whether you were their provider, friend, or just a compassionate human being.

For me, you were my listening ear, my constant everything, my partner in crime, my fellow foodie, and, most importantly, my very best friend. You were never quick to judge or speak, you’ve never met a stranger, you were always upbeat and hopeful, and you loved being surrounded by friends and family. You simply were and always will be larger than life. I’m sure my parents looked at each other when you walked up to them in Heaven, mom probably nudged dad and said “Valerie’s here” and dad got ready for your marathon of talking. They loved you. This is going to take some time, my friend, because the love runs deep and now so does the grief.

*To the Richard Family and Sabrina,
Valerie loved each of you. All of you were her everything. My sincerely condolences for your hurting hearts. And I know her memory will be kept alive so Sabrina will always know her momma.*

“ You were one of the very best medical professionals my son ever encountered. Your compassion matched your knowledge, and you made even the hardest moments feel less frightening. When my son faced one of the scariest illnesses of his life, you didn't dismiss his symptoms or minimize what he was feeling. You listened. You believed him. And when others failed to see the urgency, you stepped in and advocated for him with a level of care and conviction that we will never forget. Because of your dedication, you guided us to the right hospital at the right moment—most likely sparing him from irreversible harm. Your actions weren't just medical decisions; they were lifesaving gifts. You treated him not as a case, but as a child you genuinely cared for. Your warmth, your expertise, and your steadfast commitment made a difference that will live with us forever. We will always be grateful for your presence in my son's life, for the hope you gave us, and for the extraordinary care you provided. Thank you for everything you were—your legacy of compassion will never be forgotten.

“ Heaven has truly gained an angel. Valerie camille, was the epitome of class. I have known her for over 40 years and she was always the same she could talk your ear off, so if you called her on the phone and thought you would be on for a few minutes, that was so far from the truth, every time we talk it was no less than 3 hours. Praying for her entire family and God please comfort them in their time of bereavement. There is no sorrow on Earth that heaven cannot heal. Dr. Kimberly Jackson-Phillips

“ My condolences to the Richard family. Valerie was truly a unique individual. She was a model student during the years that I taught her, She was that rare individual that actually enjoyed learning. She set high personal standards and worked diligently to reach the goals that she had established for her future. She relied on hard work and dedication. She never offered excuses. I enjoyed my time working with her. May she rest in eternal peace.

“ I met Valerie in the Fall of 1992 in Hobart Taylor. We were Crab Sisters and sat on the front row in the Flute Section together. Valerie and I were both talkers and I would tell her to stop talking because she was going to get us in trouble. Well, neither one of us stopped talking and of course we got in trouble. In Fall 1994, we became line sisters and members of Tau Beta Sigma National Honorary Band Sorority. Valerie’s spirit never changed. She was loving and a fighter. I’m going to miss our talks and our meet ups at Homecoming. My prayers are with her baby girl and her family. Rest my sister.
